

Portfolio

An inspirational education and integrated experience that adapt to changes

Working for over 20 years as a creative designer and freelance artist on a variety of formats, briefs and industries, ranging from designing brands and corporate identities, advertising campaigns, press and art publishings, to a series of large scale installations in the cultural sector, in France, Belgium, Switzerland and UK.

Creative flair, eye for details and methodical approach play a key role in gaining, securing and developing any projects, from concept to reality.
